Hello – REI anticipates being on site tomorrow morning at about 8:00 am to hopefully complete the second approved round of groundwater sampling. REI will containerize all purge water and remove the drum(s) after the sampling is completed. If there are any questions or concerns, please do not hesitate to contact me.

Thank you,

David N. Larsen P.G

Subject: RE: Tower Standard

Hello again, just confirming that REI has scheduled the second groundwater sampling event for next Tuesday and possibly into Wednesday April 26-27. We should be on-site between 8 and 9 am, but will also follow-up with another e-mail on Monday to confirm.

Thank you,

David N. Larsen P.G

Subject: Tower Standard

Hello All, just wanting to again attempt to complete the second approved round of groundwater sampling at Tower Standard. REI would like to attempt to complete the work the week of April 25 to allow the results to be discussed in the May technical meeting. If we can't complete the work the week of the 25th, we will be shooting for the first week of April. As we get closer to the 25th, I will follow up with all parties in an attempt to confirm a date and time to complete the fieldwork.

If anyone has any issues with this schedule, please notify me at your earliest convenience.

Thank you,

David N. Larsen P.G
